Search Companies

By default, Company Name search will look for exact matches to the search string. You can perform limited pattern matching by typing the first 3 or more characters and an asterisk '*' as a wildcard. Customer Code searches must use exact values! (6 characters.)

For example a search string of sup* would return super, Company A, Superior Company B and Suppliers Galore

UPDATE

This screenshot shows a web-based application interface for managing company products. At the top, it displays the URL 'ams.myarc.com - Application Management System - Microsoft Internet Explorer' and the company name 'Anders Consulting Inc.' Below this is a 'Company Maintenance' link and standard browser control buttons (back, refresh, help). The main title is 'Company Product Options for OpticTV (otv)'. On the left, there's a 'Main Menu' with 'Company Menu' and 'User Menu' options. Under 'Company Menu', there are links for 'Search' and 'Detail'. In the 'Products' section, there are several checkboxes for selecting products: 'CNN' (marked with an asterisk), 'CNNfin', 'Bloomberg', 'CNET', and 'MSNBC'. A note says '(*) indicates a required selection'. At the bottom right, there is a 'Select 2 OpticTV checkboxes' instruction and a large 'UPDATE' button.
